How to install trading platform TenkoFX MT4 for Windows

MetaTrader4 is probably the most popular trading platform in the world. It provides you with complete flexibility to analyse market behaviour with wide range of technical analysis tools, execute trades, generate trading signals and program your own MQL-based automated trading algorithms.

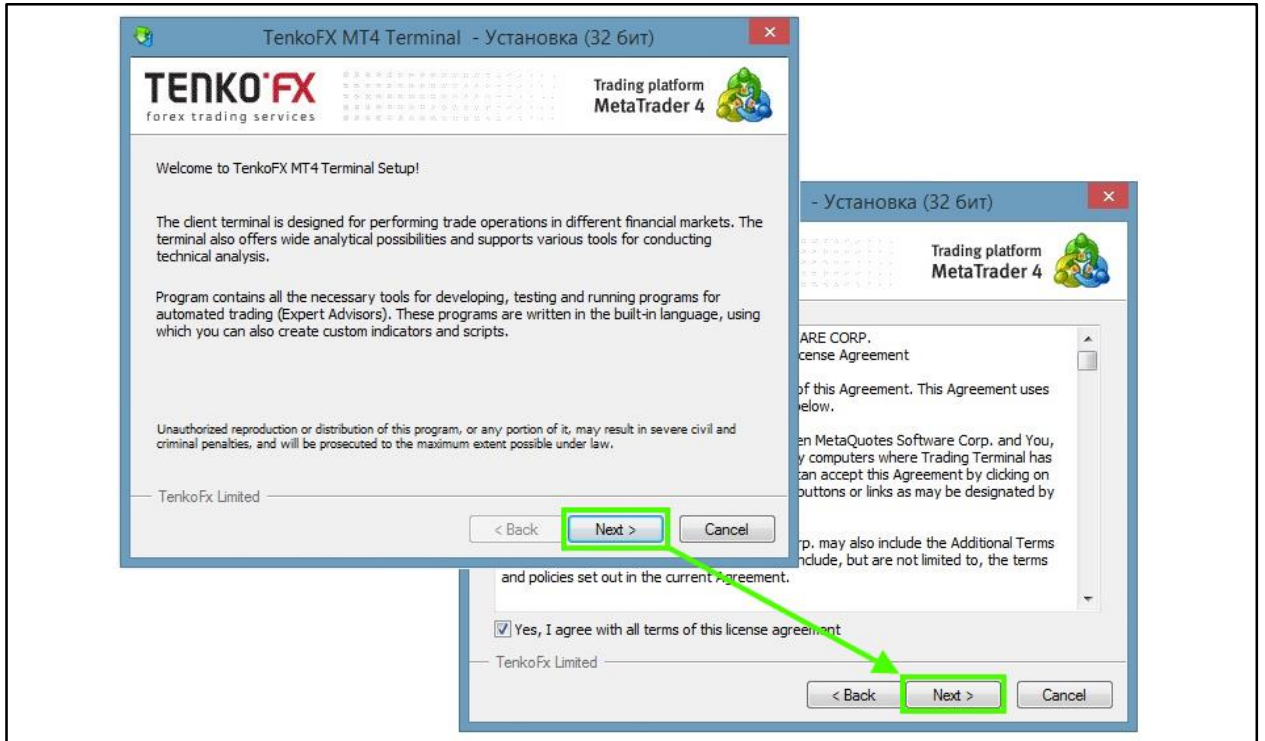

How to install trading platform TenkoFX MT4 for Windows

1. Run the downloaded file «mt_win_setup.exe».

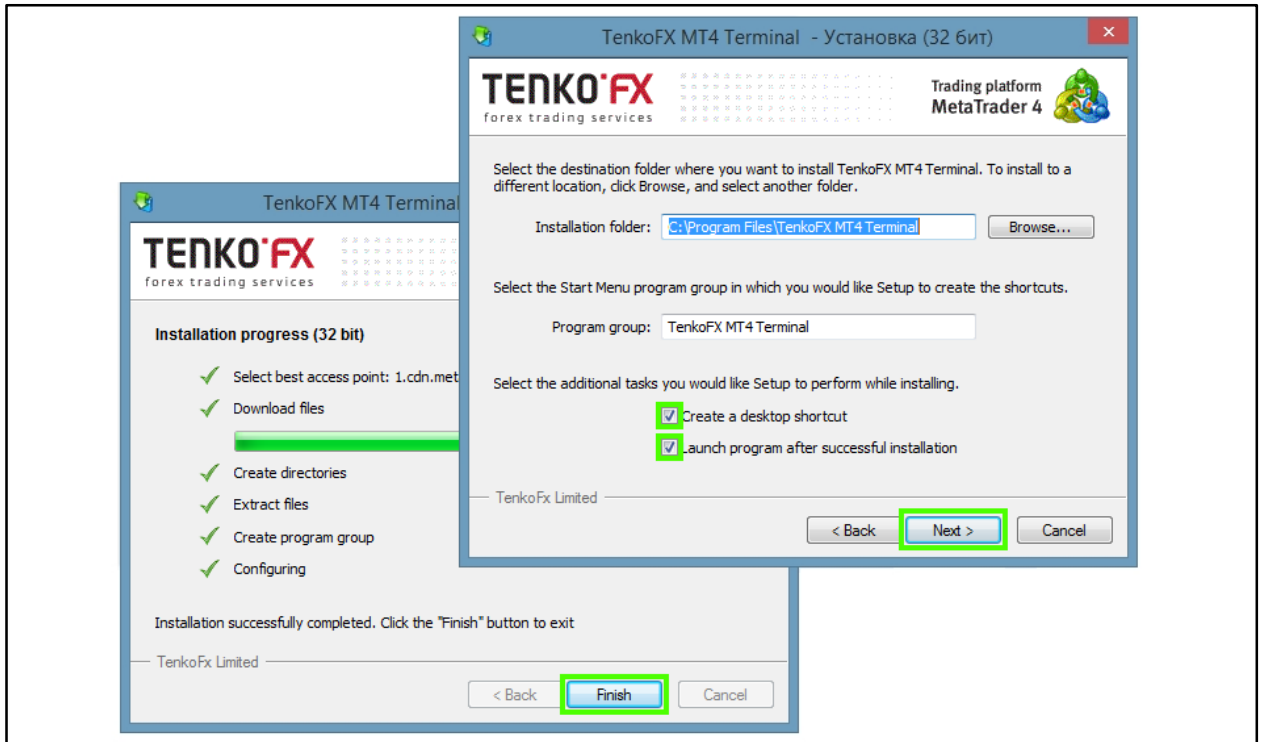

The screenshot displays the TenkoFX website's MetaTrader 4 download page. The header includes the TenkoFX logo and navigation links for COMPANY, TRADING, ANALYTICS, INVESTMENTS, and PARTNERS. The main content area features the MetaTrader 4 logo, a 'PLATFORM COMPARISON' link, and a 'DOWNLOAD' button. Below the button, there is a dropdown menu currently set to 'Windows'. A green box highlights the 'DOWNLOAD' button, and another green box highlights the file name 'mt_win_setup.exe' in the bottom left corner. A green arrow points from the 'DOWNLOAD' button to the file name. Below the main content, there are two links for 'Installation guide' with PDF icons.

2. Read and accept with terms of the license agreement. Click «Next» twice.

3. Choose the installation folder, select the additional tasks (such as create desktop icon and launch program after installation) and press «Finish».

4. The program MT4 has been successfully installed. Shortcut for the program will appear at the desktop. Enjoy your trading.
